REVALIDATION (*to declare valid AGAIN*)

Every Health Professional will be required
to revalidate in or around 2012.

This is the law of the land brought about
by the original SHIPMAN report.

**THIS IS NOT OUR LEGISLATION -
BUT THE GOVERNMENTS**

No health professional will be able to
practice without revalidation and
belonging to a Registering Body.

We the Association of Osteomyologists
are the only Registering Organisation to
have solved the revalidation process.

Dr. Graham Downing

Having qualified many years ago as a Dr. of Chiropractics, Graham, after deep reflection, realised his expertise and future pathway would best be served by becoming a Consultant Osteomyologist.

He was among the first 12 Drs to complete the first UK University MSc in Chiropractic at Surrey University, and also had the honour of becoming the first non-US doctor to train as a consultant Internist in the profession.

He has completed over 7 years full time university education and has conducted research both academic and clinical at undergraduate and postgraduate levels. Graham has been tutored by the world's top professionals in all areas of science and was fortunate enough to have Francis Darwin as his personal tutor while attending King's College. He conducted research at The Randall Inst. whilst still under the directorship of Nobel Prize winner Maurice Wilkins (given to him for his co-discovery of DNA).

Studies both graduate and postgraduate include:-
King's College London University— The Randall Institute London University - European Institute of Health and Medical Sciences Surrey University - Texas Chiropractic College - Institute of Trigenics Canada and includes speciality work in leukaemia, Psychoneuroimmunology, and relapse in back pain patients.

He is clinical director for Octagon Health Ltd and runs a busy consultancy for Osteomyology and Chiropractic Clinics in the UK. Dr Downing is a consultant for major prime-time TV production companies with series on health airing on channel 4, BBC1 & BBC2, and regularly speaks on all topics regarding healthcare and spinal manipulation.
